+HSCAPESIM
HEALTH ESCAPE ROOM VR

FEATURES

HSceneSIM™ is an innovative virtual reality software designed to transform clinical learning into an immersive, engaging, and stimulating experience. Inspired by the concept of Escape Rooms, **HSceneSIM™** allows students, healthcare professionals, and trainers to tackle clinical challenges in a realistic virtual environment, where critical thinking, collaboration, and practical skills are the keys to solving complex cases.

The use of **HSceneSIM™** in medical training provides several significant benefits:

- Active Learning
- Real-World Scenario Simulation
- Development of Soft Skills
- Motivation and Engagement
- Immediate Feedback
- Adaptability
- Accessibility
- Promotion of Critical Thinking

HSceneSIM™ represents an innovative and engaging method for medical training, offering an effective alternative to traditional teaching methods and helping to develop better-prepared and more responsive professionals.

HSceneSIM™ is compatible with all VR headsets on the market
